

FC7002-4-6-8FR

2U, 4U, 6U and 8U Flight Racks

FLIGHT CASES

FEATURES AND BENEFITS

These ATA flight-ready rack cases combine a 9mm (3/8") Plywood shell with a durable PVC exterior and an aluminum skeletal structure that will both support and protect your equipment. Features include removable front and back panels, front and rear rack rails with mounting screws and washers and 4 rubber feet. Series includes a 2, 4, 6 and 8-space flight rack (2-space and 6-space shown below).

FC7002FR
2U Flight Rack

FC7006FR
6U Flight Rack

Recessed steel spring-loaded handles and latches. (only on 4U, 6U and 8U).

The ideal solution for the storage and transport of all your equipment.

INSIDER'S TIP: *Holy heavy duty! Our flight cases are by far the most durable in their price range. We worked these over too many times to count in order to make sure they were at a quality standard that no gigging musician or sound guy could deny. The wood case itself is a monster and the hardware is out of this world. Front and rear rack rails with the screws included... Not to brag, but we totally knocked this one out of the park.*

**A Must For
the Production
Professional!**
